Administrative Asst.

## OHV FIRE UPDATE AND CLOSURE NOTIFICATION

7/26/2018

A Type 2 team has setup at the OHV park to continue fighting a fire that is working South away from the OHV park. There is a lot of firefighters staged on the North side of the main compound area with support staff. All roads in the main area are open for park guests and we ask to travel at slow speeds through these areas and stay out of these areas as we are working closely with Fire staff to keep them out of all other camping areas and amenities. The fire crew has their own catering services and the OHV restaurant is open for park guests.

The trail system has limited closures South of 1E to the Grant County boundary on the South. Please check with the park host for the most up to date closures and restrictions in areas near the fire area.
